Sam Ferree

FULL STACK WEB ENGINEER

12232 Kimball Run, Fort Wayne IN, 46845 | **sferree567@gmail.com (407) 558-8890**

WHAT I DO

I design, build, update, and maintain web applications across the entire stack. I proactively communicate with all stakeholders from customers, management, and other members of the team to ensure no individuals needs are neglected, and no contribution goes unutilized. I make it a priority to continually educate myself in the latest industry best practices, and to inform my peers and colleagues so that projects I'm a part of are delivered with the highest standards of industry best practices. I am organized and efficient, enabling me to work independently and deliver on schedule.

SKILLS, TECHNOLOGIES, AND METHODS LEVERAGED

- C#, .NET (Framework/Core), Entity Framework (Core), MVC/Web API, and Razor Pages
- JavaScript, ES6, TypeScript, and Angular
- HTML5/CSS3, Bootstrap, and Sass
